Term Project
Milestone 4: Defining your DB Schema

Due Date

Next week, ***BEFORE CLASS*** (we will be using class time to review)

Grade

Counts towards overall term project grade.

Overview

This milestone requires students to design the structure of the database that will be used to persist information about users and games.

Submission

Use a tool like dbdiagram.io to design the structure of your database. Put a link or PDF of this design alongside your APIDESIGN.md for review.
